SUMMARY:

Third-year B.Tech Computer Science student with a strong focus on AI, Machine Learning, Computer Vision, and Web Development. Experienced in building real-time ML applications, data preprocessing, model training, and evaluation using Python and Java, along with developing responsive web interfaces. A self-driven learner with strong problem-solving abilities and consistent practice in Data Structures and Algorithms.

EDUCATION

Bachelor of Technology (B.Tech) in (CSE) (Year: 2023 - Present)
Centurion University of Technology and Management, Bhubaneswar, Odisha
CGPA: 8.56 / 10

Higher Secondary Education (Class XII) (Year: 2021 -2023)
Vikash Higher Secondary School, Sambalpur, Odisha
Board: CHSE, Odisha Percentage: 70%

Matriculation Education (Class X) (Year: 2020 -2021)
Saraswati Sishu Vidya Mandir, Gamhapali, Odisha
Board: BSE, Odisha Percentage: 75%

TECHNICAL SKILLS

- **Programming:** Java, JavaScript | HTML, CSS, Bootstrap | MongoDB, SQL | Python
- **Frameworks & Tools:** Node.js, Express.js, React.js | RESTful APIs | Git, GitHub

PROJECTS

Amazon Homepage (Dec '24 – Dec '24)
HTML, CSS – Designed a static replica of Amazon's homepage with responsive layout.

Spotify UI Clone (Jan '25 – Feb '25)
HTML, CSS, JavaScript, APIs – Built a Spotify web clone with real-time data fetching using APIs.

Real time Hand-Gesture virtual mouse (Dec '25 – Mar '26)
HTML Python, OpenCV, Machine Learning – Developed a virtual mouse system using computer vision to control cursor movements and clicks, scrolling through hand gestures, enabling touchless HCI.

CERTIFICATION

- **Hackathon | Rise** (Jan '25)
In (Jan '25) Explored Blockchain technology, collaborated with fellow innovators, and developed a project under tight deadlines—gaining valuable hands-on experience. Certificate
- **Machine Learning & Data Science Trainee** (Aug '25 – Nov '25)
GeeksforGeeks – Nation SkillUp
Completed hands-on training in Machine Learning and Data Science. Built practical knowledge in model development and evaluation.
- **Gen AI Exchange Hackathon 2025 Participant Jan 2026** (Jan '26)
Google Cloud – Powered by Hack2Skill
Developed a prototype for "Personalized Career and Skills Advisor" using Generative AI concepts. Participated in a national-level AI innovation challenge.

STRENGTH

- **Machine Learning Skills** Hands-on experience in Machine Learning, Computer Vision, and Deep Learning
- **Programming Proficiency** Skilled in Python, Java, OpenCV, TensorFlow, scikit-learn, and Mediapipe
- **Web Development Skills** Basic knowledge of Web Development (HTML, CSS, JavaScript, Flask, React)
- **Development Tools Experience** Comfortable with GitHub, VS Code, debugging, and deployment concepts
